Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. **Licentiousness.**—That licentiousness is on the increase, particularly in our large cities, is apparent to every observer of what is going on in the world; and why is it? The following paragraphs, from a novel recently published, entitled "Clarissa," may give some light on the subject. The author says:

"Vile men owe much of their villainy to women of character, who hardly ever scruple to receive them into their society. If the men are rich, talented, and fashionable, even though they have been guilty of ever so much baseness to other women."

"One of the characters in the work is represented as saying:

"Had I found a character for virtue had been generally necessary to recommend me to the sex, I would have had a greater regard for my morals."

There is a volume of truth in these two short paragraphs. Women, as a general thing, look upon profligacy in men with a different eye from what they do in their own sex. The female that is seduced is looked upon by society generally as being too low and degraded for them to ever notice, no matter what her former standing while her seducer stalks abroad in the world with all the gusto of a hero of some mighty undertaking, and, as the paragraph above quoted says, finds free access to the society of females of unspotted character, particularly if he be rich.

Several of the clergymen of Boston have recently issued addresses in relation to the subject of licentiousness and its alarming increase in that city, within the few past years. The Boston Bee in speaking of this subject, says:

"We intend to write no homily upon the subject, but simply to offer what we deem a few pertinent suggestions in the case."

The address of the clergy referred to, gives no facts. This is well. They are not called for. The personal experience of almost every individual will supply him with sufficient to show that there are facts upon which to ground the address just presented to the citizens. And now what is the practical measure to be adopted to do away with the sin of licentiousness.

Perhaps the second paragraph above quoted may furnish a key to the answer.—the general condemnation of the female sex would have induced a profligate to pay a greater regard to his morals. This is incentive to virtue. Would not the general condemnation of the same profligate by the sex, deter or frighten him from the commission of crime? Is not this a legitimate conclusion?

Can the experience of any individual who reads this paragraph gain say it? We would not charge women of character with offering a premium for the commission of the deep and damning sin of licentiousness. Far from it. But do they not encourage it, at least, when they admit vile men into their society? Can they believe that men would openly be seducers and licentious, did they know that the doors of the social circle would be forever closed against their entrance? It is not the fact that the man of licentiousness is looked upon by no unfavorable eye by too many females, whose own characters are above reproach?—Brand the seducer with the mark of Cain; set a price upon his head and let that price be the utter scorn and lashing condemnation of woman, and he will at least take heed to his ways—the novice will pause ere he madly leaps into the current of sin and shame.

Licentiousness does not exist alone in the humble and lowly walks of life, but it thrives in high places, and wealth and fame lend their myriad colors to paint this monster of hideous mien. It cannot be said to be the besetting sin of any one class in the community, but it pervades more or less, all classes. And it becomes the duty of all classes to unite to put it down. More especially is it the duty of women of character to set their faces in the most determined manner against the licentious man. To him

they should say, with one voice, thus far and no farther—our good opinion you have forfeited, and our society is forever closed against you, until you cease to do evil and learn to do well.

The Augusta Democrat chronicles the marriage in that county, of Mr. Geo. Frenger, aged sixty-eight years, to Miss McFarland Merchant, aged fourteen years.

We make the following extract from a letter published in the Fall River News, written from Little Compton.

"Little Compton is beautifully situated in the Southwest corner of the State of Rhode Island. The waters of the East passage of the Narragansett wash its Western borders, and wends their way into the great Atlantic. It contains a population of about 1400, mostly farmers. It was settled soon after the conclusion of King Philip's War, in 1676, by emigrants from the Island from which the State takes its name, and from Plymouth Colony. Its Indian name was SEACONNET. Little Compton was originally owned by thirty-two persons, who manifested a great love for the Gospel, by setting apart one thirty-third part of the town for its support. Little Compton formerly belonged to Massachusetts, but was set off to Rhode Island in the year 1746.

There is nothing at the present season of the year very attractive in Little Compton except in visiting the place of the dead, where the ashes of many of the first settlers are marked with the stone brought from the land of their fathers, among which may be found the following, *verbatim et literatim*:

"Here lyeth the Body of Elisabeth, the wife of William Pabodie, who died May ye 21—1717, and in the 94th year of her age."

And by her side lies the body of her husband with the following inscription:

"Here lyeth Buried ye Body of William Pabodie, who departed this life December ye 13th—1707, in the 88th year of his age."

Mrs. Pabodie was born at —, in the year 1623, and was the first white female person born in America. Her maiden name was Alden."

**LITTLE'S LIVING AGE.**—We have received No. 201 of this popular work from the publishers. It contains the complete history of the Ether discovery: Report of the Trustees of the Massachusetts General Hospital; Dr. Morton's Memoirs of the French Academy; Death of John Quincy Adams; and correspondence.

It is published by E. Little & Co., 195 Tremont st., Boston.

**THE STEAMER PERRY.**—The public we know will be gratified to learn that the Perry is to resume her trips to Providence and Fall River on Monday-morning, going to Providence and back every Monday, Wednesday, and Friday; and to Fall River and back on alternate days. This boat never was in better order than she is at present.

The Congressional Committee that accompanied the remains of the Hon. John Q. Adams to their final resting place, "busted" it pretty strong in Boston, if we may believe the accounts published in the papers of that city of their doings.

**FAME! WHAT IS IT?**—It seems, according to the New York Tribune, that the body of the late John Quincy Adams was shipped as freight, on board the railroad cars of the Hartford and New Haven Railroad company, and that freight was charged and paid for, upon the dead body! *Sic transit gloria mundi.*

**FROM CHINA.**—The ship Sea Witch arrived at New York on Thursday, 76 days from China.

Four Chinamen have been belated for their participation in the late murder of Englishman at Canton. All further proceedings in the matter have been suspended by Sir John Davis until instructions shall arrive from England.

The new U. S. mail steamer Hermann sails from New York on Monday on her first trip to Southampton and Bremen.

On account of the great quantity of ice in the East River, New York, on Thursday, the launching of the Empire State was necessarily deferred to some future day. A large number went from Fall River and here to see her launched, but had to return home without being gratified.

The Wabash and Erie Canal, and the Miami Extension Canal, are now open.

**HISTORY OF PRINTING.**—The first attempts at printing with types can be traced to engravings on blocks of wood, the honor of the invention being claimed by citizens of three different cities—Harlem, in Holland, and Strasburg and Mentz, in Germany. Laurentius Coster, John Gutenberg, and John Faust, each claiming to be the inventors of the art. But the most reliable information appears to side with Gutenberg, who, as early as 1442, printed two small books in the city of Mentz. It is remarkable that the first book printed, of any note, was the Bible. It was printed in Latin, in 1450. Notwithstanding the improvements which had been made, the art cannot be considered as very permanently settled, until the year 1459, when a method of casting type in a mold was discovered. The art was first introduced into England in 1471, by William Caxton, and in 1500 it was known in between two and three hundred places. The first printing office in this country, was at Cambridge, in Massachusetts, in 1639—more than two hundred years ago.

The first printed newspaper appeared in the city of Vienna, in Germany; although but a few were printed until 1612, when they appeared with dates to them. The first paper in England was printed during the reign of Elizabeth, in 1588.

The first paper in this country was printed at Boston, in 1704. Now, there is not in all Europe as many newspapers as there are in the United States.

The following letter we cut from the Boston Evening Journal. It may be of some service to our nautical men. The letter is dated Hanson March 14th.

"I saw in your Journal of yesterday, that the barque Bostonian, on her last passage, experienced many terrific westerly gales; and on the 2d ult., while lying on the larboard tack, heading to the northward, was boarded by a sea which caused much damage, &c. Now sir, I have had some experience in navigating the Atlantic at all seasons of the year, and in all weathers, having crossed it sixty-two different times, and have been so fortunate as to never meet with an accident greater than the carrying away of a topmast; and I always made it an invariable rule, never to be defeated from except upon extraordinary emergencies,—when a gale from the south or west increases so as to make it necessary to lay to, always to wear round, if bound to the westward and leave to on the starboard tack, so as the wind veers, her head will be coming up to the sea. For nine times in ten, in following this rule, a vessel will weather the gale in safety; while, on the larboard tack, she will, by a gradual heading to, be kept in the trough of the sea, and exposed to great danger. And allow me to advise all young shipmasters, for whom I entertain a very high regard, when crossing the Atlantic, especially when approaching our coast, and a southwesterly gale increasing so as to oblige them to heave to, do so on the starboard tack, before the sea gets so high as to render wearing a dangerous evolution." J. SMITH."

**NEW HAMPSHIRE ELECTION.**—Returns have been received from about two-thirds of the State of New Hampshire.

The Democratic candidate for Governor is elected by a majority of 2 to 3030.—There is also a Democratic majority of 20 to 39 in the House of Representatives.

**SUCCESSOR TO MR. ADAMS.**—The Hon. Horace Mann has been nominated a candidate for Congress in the 8th District of Massachusetts, in place of the Hon. John Quincy Adams deceased.

A dense smoke was seen in the direction of the north end of Conanicut Island yesterday afternoon, which had the appearance of coming from a large fire, but we are informed that it was nothing but bon-fire.

Hon. Edward Hannegan of Ia., was appointed to be Chairman of the Committee of Foreign Relations, vice Mr. Sevier.

It is stated that the appointment of Minister to Mexico was declined by Hon. Louis McNamee, before it was conferred on Mr. Sevier.

**THE PROPOSAL.**

A worthy young lover once sought for his bride a dame of the blue stocking school; "Excuse me, good sir, but I've vowed," she replied, "That I never would marry a fool!" "Then think not of wedlock," he answered, "my fair!" "Your vow was Diana's suggestion, Since none but a fool, it is easy to swear, We'll venture to ask you the question."

### Thirtieth Congress—First Session.

**SENATE.**—15th.—Mr. Dix presented a memorial from citizens of New York, praying for the establishment of mail steamers between New York, Vera Cruz, and Havre. It was referred to the Committee on the Post Office.

Mr. Dix presented a petition signed by numerous importing merchants, praying that the duties might be assessed upon goods actually imported, without regard to the invoice. It was received and referred to the Committee on Finance.

Mr. Niles offered a resolution calling on the President for the correspondence between Mr. Bancroft, our Minister to Great Britain and the British government, in regard to a postal arrangement between the two governments.

The question whether a full mission should be sent to Rome, or only a Charge, was discussed, but postponed without action.

The ten regiment bill was taken up and discussed, and after agreeing to take the vote on its final passage on Friday, the Senate adjourned.

**HOUSE.**—The whole day was spent in discussing the resolution ordering 10,000 copies of the army provision contracts to be printed.

An old gentleman fell in love with a young lady named Page. In a ball room, the young lady dropped her glove—instantly he took it up, and his address was in presenting it—

"If from glove you take the letter 'g' Then gloves make love, which I present to thee."

"An if from Page, you take the letter 'P' Then Page makes age, and that won't do for me!"

**A GALLANT EDITOR.**—The following announcement lately appeared under the editorial head of the Mississippi Telegraph:

The Publisher of this paper would respectfully inform the public, and the ladies especially, that he has gotten through with the press of business, and is now ready to attend quiltings, candy pullings, and other parties, on the shortest notice, with neatness and despatch.

**DIED.**  
Near Courtland, Alabama, on the 15th of February, Orrin Davis, son of William P. and Laura M. Mahon, aged 15 months 16 days.

**UNITED STATES HOTEL.**  
On Pearl, Fulton and Water sts., New York, BY H. JOHNSON.

THIS is one of the largest and best kept Hotels in the city of New York. Board \$1.50 per day. Its location is particularly convenient for business men, and Mr. Johnson, the popular and gentlemanly landlord, makes the comfort of his guests a constant study. May 3

"To enable Mankind to Die of Old Age without Disease."—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. Disease comes like a thief in the night, and in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Billious Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say neglect not to provide yourself with so potent a possessor of the blood; so safe, mild, and universal a remedy as these sovereign Vegetable Pills. Remember the name of Rev. B. Hibbard is on the label of each box. All others are spurious. T. R. Hibbard, M. D., 96 John-st., New York, proprietor. See advertisement in an Nhercolumn. m15229

[Extract of a letter from Dr. Williams of V.]  
Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrofulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to have it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A. Boyden, Esq., of Cambridge, cured of the dyspepsia of a year standing, after trying a hundred remedies without the least effect.

For sale by R. J. TAYLOR.

**CAUTION.**—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as *Hibbard's Sarsaparilla and Tomato Bitters*. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Billious Affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alterative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not

merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, or made by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medical qualities of this most valuable root.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different sets of elements, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now demonstrated truth. The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SANDS' SARSAPARILLA is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton St. N. Y.  
Sold also by Dr. R. R. Hazard and R. J. Taylor, Newport, by J. Russell, Fall River, by C. Dyer, R. J. TAYLOR.

**JONES' SOAP.**  
Ladies in the country and watering places, See how the sun has burnt your faces! Look at your necks—how yellow, dark with tan! Why, 'twill repulse the love of any man! Those freckles, too, you know they'd quickly fly. If Jones' Soap you'd use; come once—do try—It costs but fifty cents, and I am told It's worth, aye, doubly worth, its weight in gold.  
Persons who have had no faith in it, have been astounded at the wonderful effect of Jones'—that is, the genuine Jones' Soap—in beautifying the skin. For sale by Dr. R. J. Taylor.

Cold Feet are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

**BEWARE OF SUGAR COATED COUNTERFEITS.**—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. G. C. HAZARD, No. 89 Thames-st., Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Seabury & Almy, Tiverton Bridge; Arnold Smith, Tiverton Four Corners; H. F. Brown, Little Compton; W. A. Brown, Adamsville. Wholesale at the New England Office, 198, Tremont-st., Boston.

# Mutual Benefit Life Insurance Co.

(Office No. 21 Wall St., N.Y.)

Advantages secured by the System of Life Insurance now in successful operation in this Company.

1st. Those in good health, of the proper age, and of sound constitution, will be insured at the lowest rate of premiums.

2d. The premium, if over \$50, can be paid one-fourth in cash, and three-fourths in a secured note at 12 months, bearing 6 per cent. interest, and subject to assessments if required, or it may be paid weekly, monthly, or quarterly.

3d. Annual division of profits in scrip certificates which bear 6 per cent. interest, and if required a loan of two-thirds on the scrip will be made in cash, or the profits can be added to increase the sum insured.

4th. No premiums are liable beyond the amount of their premiums.

5th. Married women may insure the lives of their husbands, secure from any demands of their creditors, if the premium does not exceed \$300 per annum.

6th. Creditors may insure their debtors, or debtors themselves, for the protection of creditors.

7th. An insurance can be made so that the sum insured will be paid on attaining a specified age, or sooner in the event of death.

8th. All claims on policies will be paid three months after notice and proof of death.

9th. No risk will be taken on any one life exceeding \$5000, until the surplus profits amount to \$50,000; then the amount of risk on a single life will be gradually extended as the funds of the Company augment.

10th. No Director or Officer can obtain a loan of the Company.

11th. When the net profits of the Company amount to \$200,000, the excess will be applied towards the redemption of Scrip, giving priority to that first issued; but the amount of \$200,000, in addition to the reinsurance fund, will be kept as a permanent fund, in which the members have a 7 per cent. interest.

12th. The funds of the Company to be invested by the Finance Committee in bonds and first mortgages on unencumbered real estate, the actual value of which is twice the amount loaned—or in stocks of the United States, or of the States of N. York, New Jersey, Massachusetts, and Maine, or loaned to members on their Scrip.

13th. No part of the profits is withheld, or diverted from the assured, in any way.

14th. There is no stock or loan, either nominal or real, to pay interest for; the company having ample capital in the premiums received.

15th. It enables a man to provide for a wife and children, in such a way, that although he may lose all, they are safe; and all persons, whether married or unmarried, to provide for old age, sickness, and want, as well as for death.

16th. It does not reckon the assured a year older than he is—so that from six months less, to six months more, so as to equalize the same between all parties.

17th. It pays no directors, auditors, or solicitors.

18th. A portion of the directors and the officers are chosen yearly; and the members vote according to interest.

19th. The assured can surrender the policy at any time after a term of years, and receive its equitable value.

20th. Every precaution is taken to prevent a forfeiture of policy.

The Mutual Benefit Life Insurance Company, is authorized by its charter to make all and every insurance appertaining to or connected with Life, of whatever kind or nature, and will grant annuities and make endowments, as by the Act of Incorporation, passed the 30th January, 1815.

The Directors of this Company, deeply impressed with the very great, useful, and growing importance to the community at large of Life Insurance, would call the attention of the public to the following observations and principles, as intended to explain to them its peculiar advantages, and the particular features of this valuable institution. It is seen above how extensive the privileges are, reaching to every risk appertaining to or connected with life; guarding and supporting infancy to old age, in all grades of professions and trades; orphans, widows and their children, by a small annual investment, on the principle of Mutual Benefits, arising from Mutual Insurance, being a self-protective society. In this there is no Money Stock; the funds or capital arise from premiums paid in by persons making insurance, and these funds are used to make payments on policies, grant annuities, pay expenses, and yield profits. All persons insured become members, but are not liable beyond the amount of the premiums to be paid by them. The books of the company are open to them, to see that the sums paid, or securities received, are deposited or invested according to the charter, and the net profits, at fixed periods, are divided among them, as hereafter explained. (The table of figures, and the rules, are made and calculated with accuracy, after the experience and practice of old English companies, and all persons can see by them how much they have to pay, and the gains they will be likely to receive.) This plan partakes of the Savings Bank and Mutual Insurance, affecting the security of the one, and gain of the other, and is entirely benevolent in its operations; it also embraces a provision for Married Women to insure the lives of their husbands for any amount, the premium of which shall not exceed \$100 per annum, and is secured to them against any demands in law, or of creditors.

The greatest portion of society, who by daily exertions in industry earn support, as artisans and mechanics; deriving livelihood from personal labor and skill, seldom resort to Life Insurance, in any numbers, for a future provision for their families, though to none would it be so important as to them, who, by sickness and death, may in a day, leave those nearest and dearest to them in poverty. To men in mercantile pursuits and those in professional business of every rank and class, or those who have uncertain or small incomes, and who are most numerous in wealth in the aggregate, and have it in their power to provide against the vicissitudes they are constantly exposed to, Life Insurance is also of the utmost importance; they, and those in lower circumstances, are often deterred from entering into contracts of insurance, as the advantages appear remote—being contingent on death, or ability to pay the premiums.

To assist all such, this Mutual Benefit society so arranges the payment of the premiums, and of returns, in part of the same, as to enable all persons to become members, and enjoy its advantages while living; thus protecting themselves in life, and providing for their families at or after death; in this way a short life may obtain, and leave to heirs, the benefit of a long one.

This Company will grant insurances on lives, on

the Mutual principle, to applicants upon their own lives, or for the lives of others, for the whole duration of life, or for a limited period, at the rates specified in the table, for sound and healthy persons.

Also, any person in sound health may insure \$500 for life upon his own or his wife's life, or the wife upon the life of her husband, or the age of thirty years, (and in like proportion for other ages), by paying 25 cents weekly, or on \$1000 by paying 50 cents weekly, the policy always remaining with the Company, with the premiums paid, endorsed thereon; and in case of death they will be entitled to the amount then insured, deducting therefrom the balance remaining of weekly payments, with interest, for the current year. No risk will be taken on a single life for more than \$5,000, until the profits of the Company amount to \$50,000, after which, according to the profits, the amount will be gradually extended to a sum not exceeding \$15,000.

The better to enable all persons to insure, the Company will annually issue Scrip certificates, of estimated profits, bearing interest at 6 per cent.—Whenever the accumulation of net profits of the Company shall exceed the sum of \$200,000, the excess may be applied from year to year, or semi-annually thereafter, towards the redemption of annually theretofore of scrip, in whole or in part, as may be determined on by the board of directors, priority to be given to the scrip first issued. The insured may borrow from the Company on his scrip, two-thirds of the amount of the same at any time, which will enable him to use a portion of his profits for the payment of his annual premium, even before the redemption of the scrip. All classes of persons will thus be admitted and enabled to meet the premiums, and have the gain of the Savings Bank, with the profit on a large business, by an actual small investment or outlay of money.

All claims for insurance will be paid three months after satisfactory evidence of the death of the person deceased is exhibited and approved.

Should it any time be desirable for a person to sell his policy, where it is for life, the Company will purchase the same at an equitable rate.

Parties insured at the table rates of premiums, are not to pass south of the Southern line of Virginia and Kentucky, or east of the Mississippi River, between the first day of June and first day of November; but can visit any part of the United States or Northern British Provinces, between the first of November and first of June. By the payment of an extra premium, insurances can be effected by persons who desire to reside South during the interdicted time.

All persons whose lives are insured by this company, are permitted to travel on any of the regular mail routes, (within the limits prescribed in the policy) or on any of the Northern or Upper Lakes, by steamboat or other common mode of conveyance.

Extra hazardous risks will be taken on persons going out, or residing out of the limits of the policy, and embracing all parts of the world; also on all persons going to sea, and such other risks as may be specially agreed for, being more hazardous, to be expressed in their policies. The extra premiums to be computed upon equitable principles.

Insurances will be made on the lives of Military and Naval Officers, off or on duty, in time of peace, the premium to be settled according to circumstances of climate, locality, &c., as they may be more or less hazardous.

What can better illustrate the wise disposition of the Supreme Being, in the varying term of human life, than the certainty of the general laws that regulate its duration, and the reflections that arise from the contemplation of these laws operating constantly upon the human race? Life Insurance then rests upon the simple fact, that every individual of the human race has, at the period of his birth, a certain term of existence, which he will live through, or what is called the mean duration, or expectation of life at birth.

It is a question how such term of existence, or mean duration, is found. This is done simply by taking the number of years that have been lived through by a party from birth to death; and also through by a party from birth to death, and dying at all ages from 1 to 100 years old—the number of years thus lived by each person is added into one sum, and being divided by the number of persons, the mean duration of the life of man is ascertained.

If it were found on trial, that on taking the result of the lives of 1,000 or 10,000 individuals, and deducting the mean duration; and then going through the same process with like numbers, and the mean duration of the latter differed widely from the former, it would be to no purpose to follow out experiments; but this is not the fact, and in nothing is the uniformity of the general laws of nature more powerfully exemplified, than in regulating the period of human existence. The result of experience is constant, that two bodies of individuals, each of 1000, living in the same country, and of similar occupations, have each a period of mean duration, which differs only a trifle from that of the other body. Apply this to insurance on life in the same body of persons; they pay a small sum or premium, annually, and the office, or Company, agrees to pay them annually a profit, and a certain sum at the death of each; as, by example, the average expectancy of life is found by experience, to be of a person in health of 25 years; 38 years more; and of 40 years 28 years longer; then by the tables of rates, the first has to pay \$20.40-100 a year during his life, to secure, \$1000 to be paid to his wife or children after his death; the second pays \$32, to insure the same; then taking the gain of interest, and other items, that make up the profits on Mutual Benefits, it is almost certain the amount of \$1000 insured will be much increased, when in the end it is to be paid to his heirs, all which is firmly established by the facts of experience. Life Insurance, therefore, on Mutual Benefits, is not a fictitious scheme to draw people into, for money-making purposes. Such an idea, if it exists, is most incorrect, and dissolved at once by the very fact, that this is a Mutual Benefit Company, and consequently any person taking out a policy, becomes a member by a small annual payment, and has a joint interest in its concerns, and a voice in its management. Founded on scientific principles, exemplified by experience, its real services then to all classes of persons, who are dependent on certain incomes, or salaries, professions, mechanical skill, or daily labor cannot be denied; and it has proved essentially beneficial to the families of such, in event of death, and is therefore an institution ranking among the noblest works of benevolence in the world.

Such being the equitable and beneficial principles on which Mutual Life Insurance is established, it presents a most suitable and favorable means of providing for the endeared and dependent lives of children; for what is the situation of a man, who, for the gratification of his affections,

surrounds himself with a wife and children, and lives in the enjoyment of those valued blessings, and knowing that in an instant, the cessation of his life may throw them into a state of destitution? The neglect, then, of such a cheap and certain provision, is gross improvidence; for it is not mere a man's absolute duty, to provide while he lives the daily bread for his family, than it is a gainst leaving them to suffer penniless misery in the event of his death. It is then a religious as well as moral duty, to be easily accomplished by weekly, monthly, or yearly earnings—and this Life Insurance of Mutual Benefits, is the protection against such dreadful evils.

The observations and explanations above made on the principles of Life Insurance generally, and particularly the great and very superior advantages exhibited to the public by insuring in this Mutual Benefit Company; the credit which policies will give to men in trade, the gain it may be to all classes in their business vocations, and the duty of all to provide for their families, should induce every person to give this subject a careful consideration, remembering the injunction of Scripture, that "if any provide not for his own, and especially for them of his own house, he hath denied the faith, and is worse than an infidel."

**PHALON'S CHEMICAL HAIR INVIGORATOR**

A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art. Naught with beauty can compare, With soft, glossy locks of hair; If not endowed with such by nature, Use Phalon's Hair Invigorator. The subscriber having devoted a considerable portion of his time to twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel. The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public. The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained; yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a free use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life. Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads it lays the foundation of a good head of hair. Invented and prepared by EDWARD PHALON, professor of Wig Making and Hair Cutting, 61 Broadway, New York. A treatment on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff and preserving the natural beauty and softness of the hair. Price 50 cents per bottle—large size, \$1. For sale wholesale and retail by GORTON ANDERSON, No. 151 Thames street, New York, and by J. Balch & Son, 42 South Main-street, Providence, and by druggists and hair dressers generally in Boston. nov 11-15

## The Good Things of the Season, FOR Parties, Holiday Pre- sents, &c.

WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing scarcely that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and a great many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.

Western Apples from \$1.75 to \$3.12 per bbl; shell-barks \$3 per bushel; peanuts \$1.63 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12 1/2 cts per pound; we sell these last named articles at wholesale prices. Prunes 20 cts per pound; grapes 25 cts; new citron 28 cts; preserved ginger \$1.12 per jar, or 30 cts per pound, in small quantities; candies and all kinds of confectionery cheaper than they have ever been sold at any other store in town, at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.

This is no idle advertisement merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling. Also several kinds of Cough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.

Fancy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, pocket knives, scissors, razors, razor strops, hair, clothes, tooth, and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland do, combs of all kinds, cologne, hair oil and pomatum, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.

Now-sweet cider on draught or by the barrel.

H. H. YOUNG,  
South of Town Hall.

### Look at This.

THE Rev. B. HIBBARD'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them. You do not find that one of these pills does more good than from four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all Bilious attacks affections of the liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensate perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away. Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one quarter of a pill, of 7 years and over, half a pill. These Pills are purely VEGETABLE, and may be taken under all circumstances, without regard to drink or diet.

## Hyer's Pills. The American Improved Hygienic Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.—This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, totally upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

General depot 140 Fulton st. 2d floor, N. York between Nassau and Broadway.

Sold by RIDER, Confectioner, 67 Thames street, Newport; and J. H. TAYLOR Druggist 58 North Main-st. Providence, R. I.

### Roake's Iodine Liniment.

A SAFE and certain cure for Rheumatism, either chronic or inflammatory—Paralysis, or loss of the use of the limbs, contractions of cords and muscles, and gout, it matters not of how long standing; sprains, bruises, tumors, hard swellings and enlarged joints, yield to a few applications of this Liniment. It has been used with incredible success in scrofula or king's evil, enlarged glands diseases of the spine and hip joints, the doloureux, and all nervous affections. It is invaluable, and acts like a charm, stopping the bleeding of flesh wounds, and causing them to heal in a few days. It has never been known to fail curing the most stubborn ulcers or fever sores and swelled legs, pain across the kidneys, in the chest, side, also stiff neck, sore throat and croup.

It speedily and effectually eradicates cutaneous eruptions of the skin in the form of salt rheum, erysipelas, pimples, ringworm or tetter, Barber's itch, scald head, &c. It instantly removes tooth-ache and headache. It extricates the pain and cures corns, bunions, chilblains, &c. Sold by R. J. TAYLOR, Agent for Newport.

## To All Lovers of PURE AND FRAGRANT TEA.

WILLIAM NEWTON,  
150 Thames Street, Newport Rhode Island,  
AGENT FOR THE  
CANTON & PEKIN TEA COMPANY  
Of New York.

THIS Company, although it cannot boast of being "The oldest Tea Establishment in America," does claim to have sold during the two years of its existence, more good, pure, and unmixed Teas, and at lower prices, than any other similar establishment in the United States.

The following is a list of their retail prices, which will be found to be nearly the same as those of similar Companies. The only difference they claim is in the quality of the Teas.

## Brownell's Cooking Range.

THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.

Brownell's Cooking Range has six eight inch boilers, any two, or four of which, can be thrown into use, so as to admit of a large boiler; and it is provided with a set of rings so that any size furniture can be used on it. Its Oven is large, convenient of access, and having an upward draft, it bakes evenly with a small quantity of fuel.

One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL, June 2.

BARTINE'S LOTION, Kidney and Horse Liniment, and Croquet's Liniment—for sprains, wind-galls, ring-bones, spavins, fresh wounds, stiffness of the joints, &c. in Horses—a few supplies of the above is received at R. R. HAZZARD'S, Near the Court House.

## Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public. This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

## SHOES, BOOTS AND GAITERS.

### A very Extensive Supply.

IN offering this stock of goods to the inhabitants of Newport and vicinity, I am aware that the satisfaction of making a good bargain is incomplete—it is not realized when the purchaser does not know that he is receiving for his money the very best return. To give, in this case, full assurance, I will say, that whilst the above goods are too valuable to allow of being purchased at low prices than other goods in market, I will notwithstanding, sell them at such prices as cannot fail to secure a continuance of that custom, which I already have so largely and so liberally received.
